WORK HEALTH ASSESSMENT FORM FOR CLINICAL STAFF

FOR HEALTHCARE WORKERS INVOLVED IN PATIENT CARE / PATIENT CONTACT / BODY FLUID SAMPLE HANDLING (INCLUDING LABORATORY WORKERS)

This section to be completed by HR Advisor / Manager and given to successful candidates following a job offer:

POST APPLIED FOR:	…………………………………..…..	EMPLOYER:	……………………..………………..
DEPARTMENT:	……………………………………	LOCATION:	……………………..………………
MANAGER:	……………………………………	START DATE:	………………………………..………..
HR ADVISOR:	……….…………………………...		

Your answers to this questionnaire will be **CONFIDENTIAL** to Employee Health and Wellbeing Services and will not be given to anyone else without your written permission. The purpose of the questionnaire is to see whether you have any health problems that could affect your ability to undertake the duties of the post you have been offered or place you at any risk in the workplace. We may recommend adjustments or assistance as a result of this assessment to enable you to do the job.

Before health clearance is given for employment you may be contacted by a member of Employee Health and Wellbeing Services team and you may need to be seen by an Employee Health & Wellbeing Nurse Advisor or Physician.

Please help us to help you by completing the questionnaire as fully as possible. Please complete this form in **BLACK** ink and block capitals.

EXPOSURE PRONE PROCEDURES (EPP)

Exposure Prone Procedures (EPP) are those procedures where the worker's gloved hands may be in contact with sharp instruments, needle tips or sharp tissue (e.g. spicules of bone or teeth) inside a patient's open body cavity, wound or confined anatomical space where the hands or fingertips may not be completely visible at all times.

Under Department of Health guidelines, most healthcare workers (depending on original employment dates) and all trainees on placement who perform exposure prone procedures, e.g. all foundation doctors Y1 & Y2, Drs in Surgery, Drs in Obstetrics and Gynaecology, Drs in Accident and Emergency, Drs in Cardiac Catheterisation Lab, qualified Theatre Nurses, ODP's, Midwives, Dentists & Hygienists, staff in Cardiac Catheterisation Lab, **must demonstrate freedom from infection of Hepatitis B, Hepatitis C and HIV** in the form of a blood report from an accredited laboratory, which clearly states to be a 'validated sample' as per DH guidelines.

The results of these checks must be available before clearance can be authorised for you to undertake exposure prone activities.

Please ensure that if you have copies of these tests that they are attached to this form.

If the required evidence cannot be provided the appropriate checks* will be made through Employee Health and Wellbeing Services and health clearance for EPP work will be delayed until these results are processed. Please contact the Department on 01535 294401 to arrange an appointment.

	YES	**NO**
Will you be performing EPP?		
Are you attaching evidence of blood test results / vaccination dates?		
Please provide below the approximate date that you were first employed to carry out exposure prone procedures:		

* **To comply with the Department of Health's standard for Identified Validated samples (IVS) you will be asked to show formal photographic ID, i.e. valid driver's licence, passport or Airedale NHS Foundation Trust ID for this procedure.**
